

ADM Combination inspection

Features

- Stainless steel construction and
- The combined metal detector and check weigher reduces the footprint and capital cost
- Removes product mixed with metal and unqualified weight separately
- Adopts advanced dynamic weighing and digital processing system with high detection sensitivity
- The memory function can store defective product information.
- User friendly
- Store up to 99 settings
- Adjustable sensitivity

Model	ADM-MD1/CW1
Aperture height	150mm
Detection height	120mm
Aperture width	330mm
Detection width	285mm
Detection ability	Fe ϕ 0.6mm、SUS ϕ 1.8mm(in the belt)
Maximum weight	900g
Weighing ability	+/- 0.5g
Removing method	Pendulum arm type
Belt speed	0-45m/min
Power source	240V 50Hz
Rated output	400w
Alarm method	Buzzer and Alarm lamp
Dimension	1900(L) x 710(W) x 1120(H)
Weight	Approx 150kg
